# Top Companies are waiting to hire you

The courses were brilliantly structured as the educators and the mentors, both worked in complete coordination, with the utmost dedication to help the students at every instant.

Anytime I had any problem or doubt, the mentors were there for me. No matter how many sessions it took, they made sure that my problems were solved.

– Kanishk Kalyani  
Software Engineer

In the beginning, I had some fears and apprehensions because I was overthinking about my lack of skills. There were situations that I was stuck in most of the cases and I wanted to give up but Newton school never gave up on me.

And it taught me not to give up on myself. They were ready to reach out to a student all the time and push our morals up and they were out there watching us and constantly guiding us as well.

It is just their sheer dedication and professionalism that made us who we are today.

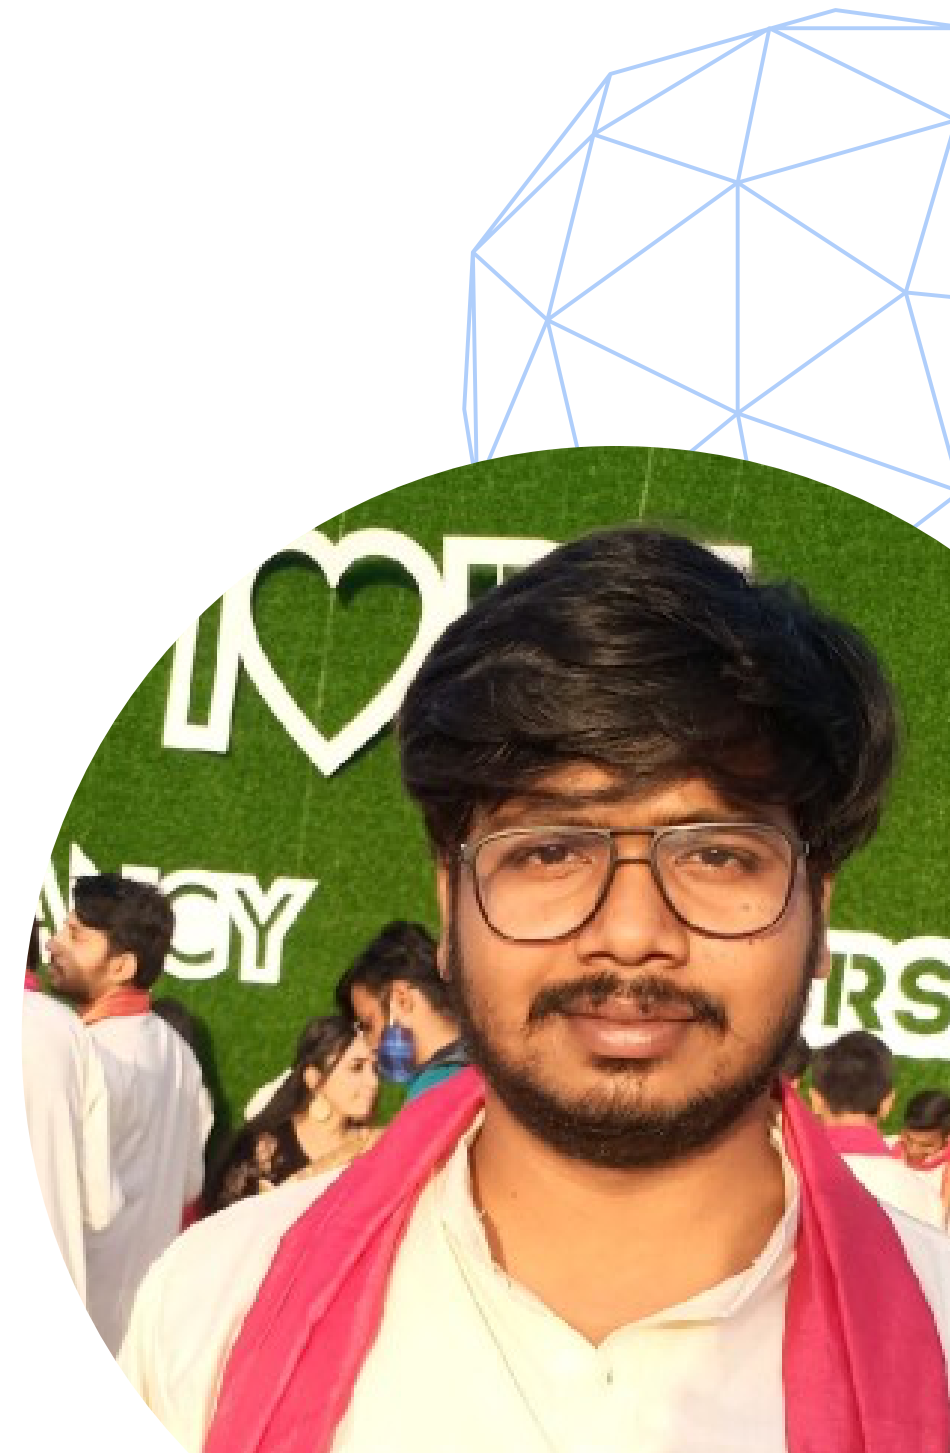

– Sithi Nasila  
Software Engineer

The entire staff at Newton School was dedicated and supportive. The learning environment and the experienced and professional mentors made this journey seem like a cakewalk, even at times, when it got difficult.

My hard work and it finally paid off as I made it to a handsome package.

– Rohit Prasad Kushwaha  
Full Stack Developer

**Peter Parker was always  
Spiderman, he just needed  
the right direction.**

**He had Ironman, you have  
Newton School!**

At Newton School, we are determined to guide, train, facilitate and empower your success.

You can expect the best support from the Newton School's Team and Mentors.

Brace yourself and work hard and you are set to crack your placement in the Tech Industry- 6 months down the line.
